

# Les addictions

**L'addiction est la dépendance**

**d'une personne à un produit.**

le tabac

l'alcool

le cannabis

les médicaments

A close-up photograph of a person's hand holding a lit cigarette. The person is wearing a dark, possibly navy blue, suit jacket. The background is dark and out of focus. The text "le tabac" is overlaid in the center of the image.

**le tabac**

**Le tabac peut-être un risque  
pour les jeunes conducteurs.**

A collection of various alcoholic beverages including beer bottles, wine, and spirits. The items are arranged on a white surface. In the foreground, there are two cans lying on their sides. Behind them are several bottles of different shapes and colors, including a brown beer bottle, a clear wine bottle, a blue bottle, a dark bottle, and a yellow bottle. The text "l'alcool" is overlaid in the center of the image.

**l'alcool**

**L'alcool intervient dans près**

**de 40% des accidents mortels de la route.**

**le cannabis**

A close-up photograph showing a person's hands lighting a cannabis joint. The person's left hand holds the joint, while the right hand holds a lit matchstick to its tip. The joint is a rolled cigarette of dried cannabis. In the background, a yellow matchbox is visible, and a small amount of cannabis is scattered on a white surface. The text "le cannabis" is overlaid in the center of the image.

**Le cannabis pourrait être considéré**

**comme la cause**

**de 10% des morts sur la route.**

A photograph of an emergency scene on a road under a bridge. Several people in orange high-visibility vests and white medical coats are attending to someone on the ground. A white ambulance is visible in the background. The scene is busy with emergency responders.

**Le cannabis fait 300 morts par an :**

**presque**

**10% des accidents mortels de la route**

# les médicaments

## Les médicaments psychotropes (somnifères et médicaments)

engendrent des difficultés de conduite.

**les cyber-addictions**

**Les cyberaddictions  
(plus de 20h par semaine pour un lycéen)**

**entraînent une fatigue physique,  
psychique et nerveuse importante.**

**Les conséquences  
sont équivalentes à l'alcool :**

**rétrécissement du champ visuel  
mauvaise évaluation des distances  
pertes des réflexes.**

**le tabac** **l'alcool**

**les médicaments**

**le cannabis**

**les cyber-addictions**
